COMP1870 Theoretical Foundations of Computer Science I

School of Computer Science, University of Leeds

Worksheet - Week 1.7 submission template

Questions

5. Let $A = [1, 2, 3]$ be $B = [4, 3, 2, 1]$ be two matrices.

   (a) Is $A^T + B$ defined (i,e., A^T and B are conformable for addition)? If so, then write $A^T + B$. Otherwise explain why it is not defined.

   Write your solution in this box:

   (b) Is $A^T B$ defined? If so, then write $A^T B$. Otherwise explain why it is not defined.

   Write your solution in this box:

   (c) Is AB^T defined? If so, then write AB^T. Otherwise explain why it is not defined.

   Write your solution in this box:
